ABOUT
SHIRLEY RYAN ABILITYLAB ADAPTIVE SPORTS & FITNESS

Our Sports Program welcomes athletes of all skill levels, from those interested in learning a new recreational sport to athletes wishing to hone their craft for elite-level competition. We serve youth and adult individuals in the Chicagoland area looking to get active, find a new hobby, and join the supporting community adaptive sports has established. Through our program, sports are made accessible physically, financially, socially and mentally.

The Adaptive Fitness Center provides a well-equipped fitness facility designed for people of all abilities and offers a broad selection of fitness services and classes to help people remain active and achieve their fitness goals. Our facility is staffed with exercise physiologists, who lead individual and group fitness sessions to provide additional expertise in attaining a greater level of fitness.

  - Saturdays, 11:30AM-2:30PM
**Where:** California Park
**Contact:** Pierre, pnealon@sralab.org, 312-238-5011
Sports For Kids Programs

The Tengelsen Family Foundation Sports for Kids Program provides participants between the ages of 6 and 21 with an opportunity to try a wide range of adaptive sports year-round.

The program offers recreational opportunities that introduce participants to adaptive sports and provide a fun instructional setting. Sports for Kids includes opportunities for everyone - from beginners to competitive athletes. All of the programs are centered on kids staying active and having fun. Participants that live in the City of Chicago are eligible for door-to-door transportation. Programs are hosted at multiple locations throughout Chicagoland and are free of charge.

Shirley Ryan AbilityLab offers individual and team sports. Teams practice weekly and travel to out-of-town competitions. Both experiences build sports skills, as well as independence. The programs are under the guidance of educated and trained coaching staff. Children of all skill levels are welcome in all programs.

Sports for Kids includes:
- Archery
- Cycling
- Judd Goldman Sailing
- Judo
- Karate
- Kayaking
- Paralympic soccer clinics
- Scuba diving
- Sports clinics
- Summer sports camps
- Swimming
- Tennis
- Wheelchair basketball
- Wheelchair softball
- Yoga

For more information, please visit sralab.org/sportsforkids or email sports@sralab.org
Sports For Kids Programs

ARCHERY
Season: Chicago Public Schools Summer Calendar
When: Thursdays, 3:30PM-4:30PM
Where: North Side Archery Club
Contact: Pierre, pnealon@sralab.org, 312-238-5011

CYCLING
Season: Chicago Public Schools Summer Calendar
When: Thursdays, 12:30PM-2:30PM
Where: Wilson Parking Lot
Contact: Pierre, pnealon@sralab.org, 312-238-5011

DAYS-OFF SCHOOL PROGRAMMING
In coordination with Chicago Public Schools days off from school, these program offerings are for youth between the ages of 6 and 17 who have a primary physical disability and are independent in their daily living skills. Depending on the season, the program offers outdoor and indoor adaptive sports and hands-on recreational activities.
Contact: Pierre, pnealon@sralab.org, 312-238-5011

JUDD GOLDMAN ADAPTIVE SAILING
This program is brought to you by the Judd Goldman Adaptive Sailing Foundation. Judd Goldman offers the opportunity to "take the helm" on boats specifically designed for crews with disabilities.
Visit juddgoldmansailing.org for more information about sailing classes and instruction.
When: Wednesdays & Fridays, 9AM-12PM
Season: June 21-July 21, 2023

JUDO
Judo, which translates as "the Gentle Way," promotes the development of necessary physical skills such as movement, balance, muscle tone, and visual/spatial awareness to participants of all abilities. A great benefit to this program is the self-esteem and sense of purpose that the students gain through participation.
Season: Spring, Fall, & Winter Sessions
When: Saturdays, 5PM-6PM
Where: The Menomonee Club for Boys & Girls
Contact: Demi, dmadden@sralab.org, 312-238-5010
Sports For Kids Programs

SEIDO KARATE
 Thousand Waves Karate for Kids Program provides adapted Seido karate for kids focusing on peaceful conflict resolutions and self-defense. Karate emphasizes a progressive development of strength and aerobic capacity. Children learn to focus their minds and build their spirits.
**Season:** Spring, Fall, & Winter Sessions
**When:** Saturdays, 3:30PM-4:30PM
**Where:** The Menomonee Club for Boys & Girls
**Contact:** Demi, dmadden@sralab.org, 312-238-5010

SPORTS CAMP
 The Sports for Kids Summer Camp is a 1-week experience for youth between the ages of 6 and 21 who have a primary physical disability and are independent in their daily living skills. The camp offers various adaptive sports and recreation opportunities such as sailing, climbing, cycling, archery, a wheelchair softball day sponsored by the Chicago Cubs, and plenty more.
**When:** June 12-16, 2023
**Contact:** Demi, dmadden@sralab.org, 312-238-5010

SWIMMING
 The swim program is geared toward beginners who want to build their skills to become independent in the water. Swimmers are assisted one-on-one with volunteers to help with pool entrance/exit, breathing techniques, flotation, and stroke approach. Advance on and join the competitive swim team!
**Season:** March-June
**When:** Sundays, 1PM-3PM
**Where:** Superior Training Facility
**Contact:** Dylan, dsams@sralab.org, 312-238-5005
Sports For Kids Programs

JUNIOR COMPETITIVE SPORTS
The Junior Competitive Sports Program is open to youth ages 6-17. The Adaptive Sports Junior Competitive Sports Program is a collaboration between Shirley Ryan AbilityLab and the Chicago Park District (CPD). Competitive Junior Sports is ideal for youth seeking to develop their sports skills in wheelchair basketball and wheelchair softball. Expert coaching and adaptive equipment are provided. Transportation is provided to participants living within Chicago city limits. Athletes travel to local and regional competitions. Participants must register with the Shirley Ryan AbilityLab and CPD to take part in the Junior Sports Programs.

WHEELCHAIR BASKETBALL
The Chicago Skyhawks Junior wheelchair basketball teams are a developmental basketball program for youth with physical disabilities. Each child will participate in a designed sports wheelchair to equalize the playing field for each athlete that participates. Kids participate in one of two teams based on their age and ability level.

- **Season:** September-April
- **When:** Saturdays, 9AM-12PM
- **Where:** Rainbow Beach Park
- **Contact:** Pierre, pnealon@sralab.org, 312-238-5011

WHEELCHAIR SOFTBALL
The Shirley Ryan AbilityLab-CPD Junior Cubs are part of the National Wheelchair Softball Association, a fast-paced and highly competitive junior division for wheelchair softball teams with players age 6-17 years old. The season begins in late May and culminates in a National Championship tournament held in early August. The junior division provides an opportunity to enjoy the thrills and experiences of competitive, fast-paced, and action-packed softball. Just like their classmates in school who play in other competitive baseball and softball leagues, youth with disabilities have the opportunity to experience the joys, sense of belonging to a team, health benefits, and all the life experiences provided by playing athletics and team sports through wheelchair softball.

- **Season:** May-August
- **When:** Saturdays, 9:30AM-11:30AM
- **Where:** California Park
- **Contact:** Pierre, pnealon@sralab.org, 312-238-5011

- All programs are co-ed.
- Coaching and equipment is provided.
- All athletes need to be registered with the Adaptive Sports Program and have a medical form and signed waiver on file in order to participate.
- Please visit [www.sralab.org/sports-fitness](http://www.sralab.org/sports-fitness) for practice-specific information or contact one of our Sports Coordinators.
Goldman Functional Fitness
Structured around your individual goals, these sessions seek to help you advance in your fitness journey. Sessions are conducted by one of our expert Exercise Physiologists, and tailored to your functional or performance objectives. These include, but are not limited to seated/standing balance, walking gait, strength and endurance, and running.
When: Daily
Cost: $60 per 45-Minute Session, or $550 10-pack

Telefitness
One-on-one interactive virtual exercise program for individuals who are looking to maximize their functional fitness and training outcomes under the guidance and care of one of our expert Exercise Physiologists. The program is designed to help increase motivation, activity, improve physical ability, and enhance personal fitness goals all from the comfort of home.
When: Daily
Cost: $60 per 45-Minute Session, or $550 10-pack

Flex-ability - Virtual
The Flex-ability class is a full-body stretch routine for participants of different ability levels. The goal of this exercise routine is to help people safely improve functional range of motion in all major joints. This stretch routine will allow participants to maintain the flexibility needed to perform many basic and instrumental activities of daily life, promote better posture, reduce joint pain, and decrease the risk of injury.
When: Mondays, 9AM-9:45AM
Cost: $110 11-week session or $15 drop-in fee

Fall Prevention Program
Incorporating exercise that mimics everyday activities, this dynamic class challenges participants to improve their balance and maximize their functional abilities. Participants must be able to stand.
When: In-person Mondays, 10:45AM-11:45AM
Cost: FREE

Nordic Poles Agility
Learn balance, strengthening and gait exercises as you safely navigate through agility courses, and small obstacles using Nordic poles. Nordic Poles Agility class improves your walking endurance, balance, posture and agility by adding poles to produce a great full body workout.
When: Seasonal
Cost: $110 11-week session or $15 drop-in fee

Pulmonary Rehabilitation Maintenance Program
Phase III
Phase III is designed for graduates from the Phase II program to assist pulmonary participants continue to exercise in an independent manner under appropriate supervision. During this 11-week program, participants engage and perform in aerobic, strength, and breathing exercises to optimize their physical performance.
When: Mondays & Wednesdays
1PM-2PM & 2PM-3PM
Cost: $220 for 11 weeks

Pilates
Experience a comprehensive system of exercises focused on deep breathing paired with precise movements to ignite your core stability and provide improved core strength, trunk mobility, stability, and posture. This class is designed for individuals who are able to transfer from standing to floor with minimal assistance (can use chair).
When: In-Person Tuesdays, 2PM-2:45PM
Cost: $110 11-week session or $15 drop-in fee

Flex-ability - Virtual
The Flex-ability class is a full-body stretch routine for participants of different ability levels. The goal of this exercise routine is to help people safely improve functional range of motion in all major joints. This stretch routine will allow participants to maintain the flexibility needed to perform many basic and instrumental activities of daily life, promote better posture, reduce joint pain, and decrease the risk of injury.

Cost: $110 11-week session or $15 drop-in fee

Fall Prevention Program
Incorporating exercise that mimics everyday activities, this dynamic class challenges participants to improve their balance and maximize their functional abilities. Participants must be able to stand.
When: In-person Mondays, 10:45AM-11:45AM
Cost: FREE

Nordic Poles Agility
Learn balance, strengthening and gait exercises as you safely navigate through agility courses, and small obstacles using Nordic poles. Nordic Poles Agility class improves your walking endurance, balance, posture and agility by adding poles to produce a great full body workout.
When: Seasonal
Cost: $110 11-week session or $15 drop-in fee

Yoga
Taught by a certified yoga instructor, this class guides participants through gentle yoga postures, breath work, and mindfulness practices. This class is designed to accommodate anyone interested in reaping the countless benefits to yoga. No prior experience required!
When: In-person Fridays, 9AM-9:45AM
Cost: FREE
Meet the Staff

Derek Daniels
**Director of Adaptive Sports & Fitness Programs, Therapeutic Recreation and Volunteer Services**
Derek holds a bachelor’s degree in Therapeutic Recreation along with a Master’s degree in Sports Management. He enjoys staying active whether it’s playing sports, coaching or just riding his bike. “My favorite part of my job is cultivating a community and providing access for everyone’s Ability to shine!”

Kelsey LeFevour
**Business Support Manager**
Kelsey is currently a Ph.D. student in the Sport Management program at the University of Illinois with a research focus on Paralympic sport development and teaches a diversity and inclusion course at George Mason University. She is a two-time US Paralympian, competing in track and field in both the Rio 2016 and Tokyo 2020 Paralympic Games. She moved back to Chicago with her dog Sadie, and started working at the Shirley Ryan AbilityLab in November of 2021.

Logan Bradway
**Administrative Coordinator**
Logan is one of our administrative coordinators at the Adaptive Sports & Fitness Center. He works primarily with answering questions, scheduling, and other admin needs across the facility. He is born and raised in Chicago and likes working at Shirley Ryan AbilityLab because of the great atmosphere and friendly patients.

Danah Ford
**Administrative Coordinator**
Danah was born and raised on the West Side of Chicago. She has always loved sports and more recently the administrative and management side of it. “My love for community and sports has led me here with hopes of being a good administrator for the 541 team and the community it is building.”

Demitra (Demi) Madden
**Sports Coordinator, CTRS**
Demi holds a bachelor’s degree in Therapeutic Recreation from the University of Iowa and is a Certified Therapeutic Recreation Specialist. She joined the Shirley Ryan AbilityLab sports team in 2020. Growing up as a figure skater and figure skating coach is what got her into adaptive sports, wanting to provide the same opportunity she had to those who face barriers from accessibility. “My favorite part about my job is helping people find a new-found love for a sport they never knew existed.”

Pierre Nealon
**Sports Coordinator, CPNP**
Pierre has been involved with recreation for 12 years with the Chicago Park District. He is a big sports fan, having played many up to this point. He has coached ages 8-13 in sports such as football, baseball, basketball, and track. Growing up in the rough parts of Englewood on the Southside, he knows that recreational opportunities in a positive environment can go a long way towards impacting the lives of kids and adults.

Dylan Sams
**Sports Coordinator, CTRS**
Dylan grew up in Iowa, where he went on to get a Bachelor’s degree in Therapeutic Recreation from the University of Iowa and became a Certified Therapeutic Recreation Therapist. Dylan previously coordinated sports programs with a special recreation association that competed in Special Olympics competitions. Dylan loves to weightlift and play any sport in his free time. “I want people to know that there are options for recreation, no matter what challenges they may face, and everyone deserves to play.”

Aleksandra (Aleska) Gabczka
**Manager of Fitness Programs, ACSM-CPT, CIFT**
Aleska has been managing and implementing exercise programs for people with medical complexity for the past 9 years at the Shirley Ryan AbilityLab Adaptive Sports and Fitness Center. She specializes in the development and implementation of individual and group exercise programs for individuals who are living with physical disabilities. Aleksandra is passionate about topics and research focusing on all aspects of disability and rehabilitation. “My favorite part about being an exercise professional is being able to help people regain their independence and return to doing activities they enjoy.”

Ryan McNeal
**Exercise Physiologist**
Ryan holds a bachelor’s degree in Exercise Science as well as a master’s degree in Adult Education and Training. He has plentiful experience in guiding and adapting fitness plans for people of all ages and abilities, including professional athletes since 2003. “I want to be a source of strength for others on their fitness journey, to keep growing.”

Jamie Norris
**Exercise Physiologist**
Originally from Oconomowoc, WI, I graduated from Carroll University with my M.S. in Clinical Exercise Physiology in 2023 and from the University of Wisconsin - Madison with my B.S. in Rehabilitation Psychology in 2021. My hobbies include reading, exercising, hiking, and camping. I love escaping into a good book, a hard workout, or the great outdoors. I came here because I love helping people regain their abilities and to live longer, happier and healthier lives!

Toni-Ann Wilson
**Exercise Physiologist**
Toni-Ann is a North Park University alum with a B.S. in Exercise Science and holds a Personal Training certification from ACE. She is a lifelong athlete and was a part of her track team in her native country Jamaica and currently apart of the Chicago Netball Club. Toni believes wholeheartedly that movement is a necessary component of physical and mental wellness. She believes that with the right exercise programs, clients can vivaciously live their best lives and have confidence that exercise doesn’t have to be a daunting task, so she prides herself on making training session fun, yet challenging, and most importantly effective! Toni-Ann describes her coaching philosophy as encouraging clients to develop self-empowerment—she wants to help you build confidence by setting challenging goals and devising effective strategies to steadily achieve them.

Caitlin (Cait) Wong
**Exercise Physiologist**
Cait graduated from Benedictine University in 2021 with a master’s degree in Clinical Exercise Physiology and she is a certified Personal Trainer (ACE). Cait started at Shirley Ryan AbilityLab in May of 2021 and she has loved being here ever since. She is a former competitive figure skater, so in her free time she will still skate from time to time, watch Disney movies, or run on her treadmill.
