

ABILITYLAB RESEARCH SEMINAR SERIES

Spring Quarter 2019: on Mondays, April 1 – June 10, 12pm - 1pm Sky Lobby Auditorium, 10th floor, Shirley Ryan AbilityLab

Apr 1	Sabah Kadri, PhD
	Director of Bioinformatics and Assistant Professor of Pathology, Lurie Children's Hospital, Northwestern University Feinberg School of Medicine, Chicago, IL.
	Title: Next generation sequencing: power and challenges in clinical testing.
Apr 8	Gokhan Dalgin, PhD
	Staff Scientist, Section of Endocrinology, Diabetes and Metabolism, The University of Chicago, IL.
	Title: Human brain organoids a tool to understand neurological disorders.
Apr 15	Ming Chan, MD, FRCPC
	Professor of Anatomy & Cell Biology, Director of MicroCT Core and Imaging Center, Lewis Katz School of Medicine, Temple University, Philadelphia, PA.
	Title: Electrical Stimulation to Enhance Peripheral Nerve Regeneration: from Bench to Bedside.
Apr 22	Mary Barbe, PhD
	Professor of Anatomy & Cell Biology, Director of MicroCT Core and Imaging Center, Lewis Katz School of Medicine, Temple University, Philadelphia, PA.
	Title: Effectiveness of several conservative and non-conservative treatments for reducing fibrosis in an operant rat model of work (chronic repetitive reaching and pulling)
Apr 29	Roger O. Smith, PhD, OT, FAOTA, RESNA Fellow
·	Professor, Department of Occupational Science & Technology, College of Health Sciences, Director, Rehabilitation Research Design & Disability (R2D2) Center, The University of Wisconsin, Milwaukee, WI.
	Title: How Smart is Smart? Leveraging Technology for People with Disabilities
May 6	No seminar (no room available)
May 13	
May 13	Gretchen Meyer, PhD
May 13	Gretchen Meyer, PhD Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO.
May 13	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and
May 13 May 20	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO.
•	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige.
•	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health
•	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL.
May 20	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL. Title: Multiple Sclerosis in Disadvantaged Populations.
May 20	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL. Title: Multiple Sclerosis in Disadvantaged Populations. No seminar (Memorial Day).
May 20	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL. Title: Multiple Sclerosis in Disadvantaged Populations. No seminar (Memorial Day). Carola Salvi, PhD Scientist in the Cognitive Neuroscience Lab at Shirley Ryan Abilitylab, Postdoctoral researcher at Northwestern University, Adjunct Professor at Loyola University of Chicago and at the Psychiatry Department of Feinberg School of Medicine at
May 20	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL. Title: Multiple Sclerosis in Disadvantaged Populations. No seminar (Memorial Day). Carola Salvi, PhD Scientist in the Cognitive Neuroscience Lab at Shirley Ryan Abilitylab, Postdoctoral researcher at Northwestern University, Adjunct Professor at Loyola University of Chicago and at the Psychiatry Department of Feinberg School of Medicine at Northwestern University, Chicago, IL. Title: What happens in our brain when we have an Aha! moment? Insights on how to have more
May 20 May 27 Jun 3	Assistant Professor, Program in Physical Therapy and Departments of Neurology, Biomedical Engineering and Orthopaedic Surgery, Washington University in St. Louis, MO. Title: Fat-muscle signaling: the good, the bad and the beige. Dominique Kinnett-Hopkins, PhD Post-doctoral Fellow, Integrated Fellowship in Health Services & Outcomes Research, Center for Education in Health Sciences, Feinberg School of Medicine, Northwestern University, Chicago, IL. Title: Multiple Sclerosis in Disadvantaged Populations. No seminar (Memorial Day).
