

Food With Friends

Pediatric Summer Camp

Led by our pediatric speech-language pathologists, the Food with Friends group focuses on facilitating positive interactions with new/non-preferred foods with children who have sensory feeding needs or who have difficulty with mealtimes.

This specially-designed, therapeutic camp program utilizes principles of Sequential Oral Sensory (SOS) and Food Chaining approaches, which have been shown to help children increase their food repertoire.

Signs your child may be a problem feeder:

- Accepts less than 20 different foods
- Has stopped accepting many foods they used to
- Cries or becomes upset when presented with new foods
- Refuses entire categories of food textures
- Eats different foods than the rest of the family

A physician referral/prescription is required to participate in the camp.

Session 1

Monday–Friday
June 15–June 19
12–1:30 pm

Session 2

Monday–Friday
July 20–July 24
12–1:30 pm

Session 3

Monday–Friday
August 17–August 21
12– 1:30 pm

*Families are encouraged to choose a minimum of 2 of the 3 weeks

Space is limited!
