West with the Giraffes
by Lynda Rutledge

At age 105, Woodrow Wilson Nickel is aware that giraffes are becoming extinct. Nickel looks back on an unforgettable experience in his youth, involving some amazing giraffes.

West with the Giraffes is set in 1938; the Depression lingers and Hitler is threatening Europe. Americans are longing for a chance to believe in something.

Two giraffes survive a hurricane when crossing by sea from Africa to the United States. The giraffes become a news phenomenon. Inspired by true events, *West with the Giraffes* cleverly combines adventure, history and a love story.

Join us as we are changed by the grace of animals, the kindness of strangers, the passing of time, and a story told before it is too late.

Zoom Conversation Group

Come join the internet-based conversation!
See and hear from others who have aphasia, while social distancing.

This is an opportunity to talk about anything you want – what’s happening in the world, politics, entertainment, living with aphasia, your daily and weekly activities – anything goes! Converse in a supportive environment with others who have aphasia.
