

Power Play

2022 Pediatric CIMT Summer Camp

Led by our pediatric occupational therapists, Power Play is a multi-week program that focuses on improving upper extremity function in children who have spastic hemiplegia or hemiparesis as a result of cerebral palsy, traumatic brain injury, stroke or other diagnoses.

This program utilizes principles from a modified Constraint Induced Movement Therapy (CIMT) protocol, in which the unaffected arm is restrained by a removable cast and the affected arm is used for all functional activities.

Camp activities include games, art projects, outings, sensory play activities, bimanual activities and self care. Children will be evaluated at the beginning and end of camp to progress in strength, flexibility and use of the affected arm can be measured.

A physician referral/prescription is required to participate in the camp. Participants must have an insurance policy that will cover group therapy.

Session 1

Monday–Thursday

July 11–July 29

8:30–11:30 am (ages 4–6)

541 North Fairbanks Court, Mezzanine Fl

Session 2

Monday–Thursday

July 11–July 29

1–4 pm (ages 7–10)

541 North Fairbanks Court, Mezzanine Fl

Participants must be:

- Ambulatory
- Able to grasp and release an object
