

Sep 11	<p><b>Lisa Ottomanelli, PhD</b> Clinical Psychologist James A. Haley Veterans' Hospital and Clinics <i>"Employment for veterans with spinal cord injury and traumatic brain injury: evidence driven approaches"</i></p>
Sep 18	<p><b>Ramon Diaz-Arrastia, MD, PhD</b> John McCrea Dickson MD Presidential Professor Director, Clinical TBI Research Center University of Pennsylvania Perelman School of Medicine <i>"Traumatic microvascular injury: a targetable endophenotype after acute and chronic TBI."</i></p>
Sep 25	<p><b>David Brody, MD, PhD</b> Chief Science Officer and Chief Innovation Officer Uniformed Services University of the Health Sciences (USUHS) <i>"Individualized resting state fMRI guided transcranial magnetic stimulation treatment for depressive symptoms in traumatic brain injury patients"</i></p>
Oct 2	<p><b>Anthony Wagner, PhD</b> Professor, Psychology Deputy Director, Stanford Wu Tsai Neurosciences Institute Stanford University <i>"Readiness-to-remember: how young and older adults remember and forget"</i></p>
Oct 9	<p><b>Ken Paller, PhD</b> Professor, Psychology and James Padilla Chair in Arts &amp; Sciences Director, Cognitive Neuroscience Program Northwestern University <i>"Memory reactivation during sleep: how to tweak it to enhance various health benefits of sleep"</i></p>
Oct 16	<p><b>Russ Poldrack, PhD</b> Albert Ray Lang Professor of Psychology Associate Director, Stanford Data Science Stanford University <i>"Making cognitive neuroscience more open and reproducible"</i></p>
Oct 23	<p><b>Zeb Kurth-Nelson, PhD</b> Research Scientist DeepMind Technologies <i>"Compositional cognition"</i></p>
Oct 30	<p><b>Joshua Greene, PhD</b> Professor, Psychology Harvard University <i>"How to build an on-ramp: scalable strategies for bridging divides"</i></p>
Nov 6	<p><b>Robert Motl, PhD</b> Professor, Rehabilitation Sciences, Kinesiology and Nutrition University of Illinois Chicago <i>"Exercise training in multiple sclerosis: what we learned from 20-years of randomized controlled trials"</i></p>
Nov 13	<p><b>No Scheduled Seminar—Society for Neuroscience Annual Meeting</b></p>
Nov 20	<p><b>Todd Parrish, PhD</b> Professor, Radiology, Biomedical Engineering, Physical Therapy and Human Movement Sciences Northwestern University <i>"Towards real-time mapping of brain activity during brain surgery using infrared thermal imaging"</i></p>
Nov 27	<p><b>No Scheduled Seminar—Thanksgiving Holiday</b></p>
Dec 4	<p><b>John O'Doherty, PhD</b> Fletcher Jones Professor of Decision Neuroscience California Institute of Technology <i>"The brain is a mixture of experts"</i></p>
Dec 11	<p><b>Linda Resnik, PT, PhD, FAPTA</b> Professor, Health Services, Policy and Practice, Brown University Research Career Scientist, Providence VA Medical Center <i>"Transforming practice and research through a learning health systems approach"</i></p>
